Guidelines

MATERIALS should be of the best quality and appropriate for the piece. In most cases, natural materials are preferable to synthetic ones.
WORKMANSHIP should demonstrate mastery of necessary skills and careful finishing.
FUNCTION – The item must work well and be appropriate to its purpose. All necessary parts (e.g. hardware for hanging, care/use instructions, etc.) should be included.
DESIGN should be well thought out and show attention to detail. If any pre-manufactured parts or commercial designs are used, they should be subordinate to the craftsman's own design and creativity in the finished product.
OVERALL consumer appeal and value should be demonstrated.
